OFFICE OF REGIONAL COUNTY

Ms. Deborah Hilsman Acting Associate Regional Counsel U.S. Environmental Protection Agency Region 10 1200 Sixth Avenue Seattle, Washington 98101

Re: SJ Nudelman and Son, Inc., Docket No. 1088-09-33-2615

Dear Ms. Hilsman:

This letter confirms that you have received a copy of the General Electric PCB Log Report for October 30, 1989 sent by Mr. Marvin Nudelman which includes a description of the removal of the transformer which was the subject of the above-captioned matter (i.e., PCB transformer serial no. 6408310).

In this regard, the transformer has been shipped to Envirosafe under manifest (attached hereto), but we have yet to receive the actual disposal certificate. Further, the 13.5 gallons of oil contained in the transformer were also manifested and shipped to an appropriate facility in the Chicago area (CWM/Chemical Services, Inc.) and we have yet to receive a disposal certificate from them As you know, the backlog on the destruction of PCB containing items as well as the paperwork is substantial. In this light, we request additional time to provide you with a disposal certificate pursuant to our consent agreement, as we quite clearly do not have control over the issuance of this report from the third parties who are handling these materials. Accordingly, we request a 60-day extension to January 1, 1990 in which to provide you with the appropriate documentation with respect to the destruction of these materials.

COPELAND, LANDYE, BENNETT AND WOLF

Ms. Deborah Hilsman November 2, 1989 Page 2

If you have any questions, please do not hesitate to give me a call.

Sincerely,

Durd L. Hount/cd_
